Need following information of railroad yards in this area; which are believed to be transloading yards:

- (1) Length and width of yard in feet; width in number of tracks; number of Soviet gauge (5' 0") and Polish gauge tracks,
- (2) Number of Soviet and non-Soviet freight cars in yards. Number of cars of each type (open top, flat, covered, tank).
- (3) Location of platforms, cranes, other facilities for transloading.

25X1D

This item is not of high priority, since it is probably not a major transloading area.
